delete "26" and substitute --44--.

In the Claims

Please cancel Claims 9-14.

Please add the following claims:

15. A retroreflective structure comprising an array of transparent prisms having a base and three facets extending therefrom to a common apex, the base of the prisms lying in a common plane, the prisms being spaced between 0.0005 to 0.003 inches on center with a reflective coating adhered to the facets, wherein the light retroreflected from the structures encompasses a 0.5 degree angle of observation, uniform orientation-free cone.

10  
16. 9 The structure of Claim 15, wherein the structure retroreflects light at a substantially uniform brightness across a dihedral angle deviation of each prism in a range of about -1.04 to 3.67 minutes.

17. A retroreflective structure comprising an array of cube corner prisms which diffract essentially all retroreflected light.

12  
18. 11 The structure of Claim 17, wherein the structure retroreflects light at a substantially uniform brightness across a dihedral angle deviation of each prism in a range of about -1.04 minutes to 3.67 minutes.

In the Drawings

Applicants hereby submit the proposed drawing correction to FIG. 2, as indicated in red ink, for the Examiner's approval.
